REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Independent claims 1, 9 and 16, contain limitation of an interface/method/system that includes a drive circuit that responds to a shutdown signal by removing current sources and current sinks from a control terminal of the switching device, at which point leakage currents associated with the control switch of the switching device cause the switching device to reduce the drive current to an inductive load. Prior art does not disclose such an arrangement. Dependent claims 2-8, 10-15 and 17-20 are allowable over prior art as containing limitations of set forth in independent claims 1, 9 and 16.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

4. The information disclosure statement (IDS) submitted on 02/17/2004. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has being considered by the examiner.
